## SKILLS

NodeJS - Typescript - Express js

GraphQL

React js - Next js - Material UI

MySQL - Redis

RabbitMQ

PM2 - Jenkins - Docker

Kibana - Datadog

## EDUCATION

### POST GRADUATE DIPLOMA

Centre for Development of Advanced Computing - CDAC, Mumbai

2019 - 2020

### COMPUTER ENGINEERING

Lokmanya Tilak College of Engineering, Navi Mumbai

2015 - 2019

## PROFILE

Dynamic Software Engineer with 4 years of experience specializing in API development, system architecture, and automation. Committed to delivering high-quality solutions that drive innovation and meet business objectives.

## EXPERIENCE

### SENIOR PRODUCT ENGINEER

Servify | Sep 2021 - Present  *( 2 years 6 month )*

- Spearheaded API gateway operations, ensuring secure data exchange via encryption, IP whitelisting, and rate limiting, while developing and managing token-based APIs for controlled access and data integrity.
- Led RabbitMQ-based project development to optimize performance for handling large data volumes, alongside engineering internal automation using React.js, TypeScript, and Express for enhanced operational efficiency.
- Utilized Kibana, Datadog, Docker, Jenkins, and PM2 for monitoring, logging, CI/CD, and process management, while leveraging MySQL and Redis for scalable data storage and caching.
- Implemented Mocha and Chai test suites to ensure high code quality, while integrating Husky and linting tools for code consistency and maintainability.

### SOFTWARE ENGINEER

3i- infotech | Mar 2020 - Aug 2021 *( 1 year 5 months )*

- Participate in the entire application lifecycle, focusing on coding and debugging
- Collaborate with Front-end developers to integrate user-facing elements with server side logic
- Developed backend services for functional web applications
